

OXHOO UK to set up a partnership  
with the Tim Bacon Foundation donating  
1€ for every POS System sold monthly.

OXHOO UK Point-of-Sale systems has partnered with the Tim Bacon Foundation and will donate 1€ for every POS System sold monthly.

***“Oxhoo has been hugely inspired by the work of the Foundation. We are delighted to support this tremendous charity and to raise funds for their very worthy cause.”  
Sarah Appleby, UK Sales & Operations Manager, Oxhoo.***

The Tim Bacon Foundation was established in 2017 with the aim of supporting those that help people living with cancer. All funds raised are donated to charities in both research or organisations that provide practical help to people living with the effects of cancer.

To date:

- ❖ £500,000 was donated to The Christie Hospital, Manchester for the research wing of the Proton Beam unit. The first in the UK.
- ❖ £60,000 donated to Maggie’s Centre – which offers free practical, emotional and social support to people with cancer, their families and friends
- ❖ £99,000 donated to Kidscan to fund three Tim Bacon Foundation Post Graduate fellowship positions at Salford University. Kidscan specialises in funding research into specific treatment for children’s cancers which receive a fraction of the funding of adult cancers.

This year they continue their support for Maggie’s Centre and will be funding a further £100,000 in research by supporting Breast Cancer Awareness for two Tim Bacon Foundation Research Projects into breast density. The work we are funding will assist with early diagnosis which is the most important element in survival rates.

***“A significant quality of Tim’s was generosity and that is one of the core values at the Foundation. Oxhoo UK’s donation of 1€ for every terminal sold monthly is truly generous. “This will contribute to raising much needed funds for our beneficiaries this year, Kidscan.”  
Jane Atherton, Charity Executive, Tim Bacon Foundation.***

OXHOO’s ambition is to attract hospitality and retail customers through the breakthroughs in point-of-sale technology. With touchscreen terminals that can integrate in any industry, Oxhoo terminals are where design and functionality meet. The Oxhoo philosophy is to reduce the total cost of ownership with high-tech, reliable equipment combined with a dedicated team of customer service professionals.
